DAVENPORT

Program of Charities Convention.—The official program for the 11th annual state conference of charities and corrections has just been received, and shows that the meeting opening in Davenport next Sunday will be one of the most important that has ever been held in Davenport. It will bring representative men and women not only from all parts of Iowa, but from many other states.

Member Pension Board.—Dr. J. D. Cantwell has received notice of his appointment to the position of examining surgeon of the local board of pensioners by the commissioner of pensions. This is a very important office for upon him rests the decision as to whether an old soldier deserves an increase in pension or not. As there are many of these pensioners in this locality the appointment is an unusually important one. Dr. Cantwell takes the place left open by the resignation of Dr. De Graf, who has retired from active practice and will live in the future upon a 100-acre farm which he recently

A Spotless Sink

The kitchen sink can be kept as clean and dainty as the china washed in it—and why should it not be? After each dish-washing, make a suds in the dishpan with warm water and Gold Dust and rinse the sink thoroughly and it will remove the last particle of dirt and grease. Gold Dust has the peculiar quality of dissolving and cutting grease. These will never become clogged with grease if Gold Dust and plenty of hot water are used for washing the sink morning and evening.

bought near Alexandria, Minn. Dr. Cantwell will have as his associates Dr. Henry Braunlich, president, and E. S. Bowman, secretary of the board. The appointment is an indefinite one but is usually held until resigned or left open by death.

Dwelling Declared Nuisance.—Following close upon several complaints which have been received by the board of health in regard to the sanitary condition of the building at 221 and 223 East Tenth street, and which is used by several families as an apartment dwelling, an order has been issued against David Pollock, the owner, to the effect that the building was to be entirely changed and the present nuisances arising therefrom abated. The order is to be carried out within a period of ten days or the city will order the necessary change made and the costs arising therefrom assessed to the owner.

Buy Big Tracts in Heights.—Contracts of sale for the largest transfer of realty in the McClellan Heights addition since the opening of this beautiful residential section of the city have been signed during the past few days and as soon as the deeds are executed the property will be transferred to its new owners. Judge Nathaniel French purchases of August Steffen the beautiful Steffen tract with a frontage of 350 feet and of the McClellan Heights company the adjoining 200 feet, making a total frontage of 550 feet. J. L. Hecht buys 300 feet adjoining. Judge French's purchase includes the high point of land from which the finest view in the heights may be had up and down the river. These purchases mean three fine new residences for the Heights. A fine summer home for Judge French and family and a handsome home for Mr. and Mrs. H. F. Evans, his son-in-law and daughter,

will be erected on the French purchase. Mr. Hecht will in the near future build a splendid home on his tract.

Obituary Record.—John Haller, a farmer residing near Princeton, Iowa, died at his home Wednesday after a short illness from pneumonia. No immediate relatives survive him although his stepson, J. B. Drescher, who was formerly an employee of the Davenport postoffice and now of Louisiana, Mo., has been a close friend for years.

MOLINE

New Salem Lutheran Church.—Ground will be broken next week for the new Salem Lutheran church which is to rise at the corner of Eighteenth avenue and Fourteenth-and-a-half street. At a meeting of the church building committee and the trustees, Oscar Peterson was elected superintendent of the building work. A general contract on construction will not be awarded. The church is fortunate in having within its membership a building contractor, and Mr. Peterson, who has generously offered his services, will have complete charge of construction.

Initiation Jan. 2.—It has been decided to hold the annual tri-city initiation for the Knights of Columbus in Moline Jan. 2. At this ceremony Loras council of Davenport will present 60 candidates, and applications in Moline and Rock Island are being received in great numbers. At the banquet which will follow the initiation exercises during the day, Joseph Murphy, the grand knight of Leo council of Moline, will act as toastmaster.

Three are Touched.—Tom Pallas, an Austrian residing in East Moline, lost his suit case at the Rock Island passenger station in this city. Pallas was intoxicated at the time and he has no idea who walked away with his property. W. E. Sickler, 244 Forty-third street, reported to the police that some one took a pair of shoes and a dinner bucket that were his property. According to Sickler, he left the articles in a downtown restaurant while he made "the rounds." Thure Almquist, 1229 Seventh avenue, reports that his watch was "lifted" while he was quenching his thirst at a downtown saloon.

Obituary Record.—The remains of Frank Pipp, a veteran of Moline's volunteer fire department, arrived from Kewanee for interment in East Moline cemetery. Death occurred Monday afternoon at Kewanee after an illness of four weeks with cancer of the throat. He had been failing since July. Mr. Pipp was born at Madison, Ind., Dec. 22, 1863, and made that city his home until 20 years ago, when he came to Moline. He was united in marriage to Miss Katherine Kipp in this city May 28, 1896. No children were born to them. Seven years ago

This Will Stop Your Rheumatism

A Remarkable Electric Device That Positively Has Relieved Countless People of the Pains and Causes of Rheumatism.

Throw away your pills, powders and other medicines. Here is a treatment that will make you rub your eyes and wonder. It is not a maybe, but it is a fact—a marvel. It has been proven a tremendous success. Men and women, formerly crippled with rheumatism, report themselves now hopping around like boys and girls as a result of using this simple and wonderful device, called Electropodes.

Electropodes produce a wireless, unnoticeable, yet powerfully effective current which passes through the entire body, through every muscle, nerve, fiber, vital organ and blood vessel. It is the new way of using electricity, opening a tremendous field to the successful treatment of disease.

By this electric current, Electropodes regenerate the tissues, purify the blood and the vital organs, especially the kidneys, regulate the functions, and turn the nerves almost into "cords of steel."

It proves that electricity is not only life, but health and vigor in all its glory. Electropodes will positively stop your rheumatism, lumbago, pain in the back, kidney trouble, weak nerves, nervous prostration, stomach and liver trouble, insomnia, and heart weakness.

Electropodes are different from any other electric device in that they produce a current only while in actual use. They are metal insoles so placed in the heels of the shoes as to be unnoticeable to the wearer.

To prove these statements are ever bit true, your druggist will sign a contract that if it does not perfectly satisfy you after 30 days' trial, your money will be refunded. Electropodes are sold at drug stores at \$1 a pair. If your druggist does not have Electropodes on hand, send your remittance to The Electropode Company, Suite 48, Holland Block, Lima, Ohio, and you will get a pair, together with the firm's contract binding them to satisfy you completely before 30 days are over or positively refund your money. Say whether for lady or gentleman.

Don't Turn the Corners of Your Mouth Down!

The world isn't as blue as it seems to you! Perhaps your blood is out of order, your nerves unstrung from the hurry and worry of your calling. Perhaps your stomach is out of sorts and your general health out of gear. What you want is a dose or two of

BEECHAM'S PILLS

and soon you will be as chipper as a cricket. It is astonishing what this remedy will do for you. Don't wait until you have some definite sickness, but take Beecham's Pills now. They will ward off further trouble by tuning up your nerves, sending new blood coursing through your veins. They will clear the stomach, stimulate the liver and aid the kidneys. Just the medicine you need and

The sidewalk test is the hardest test that concrete has to bear.

Sidewalks are subject to quick changes of extreme heat and cold, rain, snow, sun, wind—all the elements unite to destroy it.

Do you plan on new walks this fall? You want cement that will wear—that will make sidewalks as hard and lasting as stone.

Don't waste time and money; don't cause yourself endless worry and annoyance by experimenting with some brand of cement that you don't know all about—that you aren't sure is the very best.

Poor cement costs as much as good—the skill in marketing for cement lies not in securing a better price, but the best quality. Marquette cement is the good cement. Made of good, honest rock, in a thoroughly scientific way. There isn't any better. It is the best. Specify Marquette in your contracts. Mark the MARQUETTE Mark. The Mark of Safety.
